

Project Purpose:

The purpose of this project is to make operational improvements to the State Route 99 and Gateway Interchange in the City of Madera.

Project Description:

The California Department of Transportation, in cooperation with the City of Madera will make improvements at the Gateway Interchange on State Route 99 in the City of Madera. Project improvements will include the construction of a new southbound exit ramp to Almond Avenue, modifications to the southbound entrance ramp, and connection of the northbound exit ramp to Gateway Drive. Modifications will be made to the existing South Madera Overcrossing by widening the overcrossing from one lane to two lanes, to include the realignment of Gateway Drive to connect Almond Avenue at Barnett Street.

Construction Cost: \$6.4 Million

Begin Construction: November 2006

End of Construction: December 2007

Funding Sources:

State Transportation Improvement Program (STIP), Local Measure A Funds, City of Madera

Agency Responsibilities:

Caltrans: Design, Environmental, Planning, Right of Way and Construction Management.
